

Ferryhill home delivery of the curriculum

- Your child's class teacher will share a summary of topics which were planned to be covered over the coming weeks.
- Teachers will also set classwork on education city (pupils have logins) and we advise that you refer to the class newsletter for additional learning suggestions
- Staff will be sending new learning activities weekly on Seesaw, we ask that communication is **only** for challenges faced while completing any of the tasks set and no other communication.
- If your child has an additional support need then your class teacher will be able to support with resources for each individual.
